NSA's Utah Data Center

Designed to further strengthen and protect the nation's cyber security, the Utah Data Center - at \$1.5B and 1M sf -is currently the largest DoD project in the nation. NSA is the lead agency at the data center and USACE is the construction agent. Baltimore and Sacramento Districts are working together on acquisition and contracting, design management and review, and project management. The joint venture design/build team consists of Big-D, Balfour Beatty, and DPR.
